

NETTING

BALE NET WRAP

FEATURES

- Unique Extrusion and Knitting Technology.
- Compatible with all round balers.
- Total cover technology provides complete coverage across the bale.
- Maximum resistance to cope with all type of crops, bale density and sizes.
- Maximum ability to withstand repetitive handling.
- High UV stabilized and antistatic treated.
- End-of-roll warning system.
- Unique identification code on every roll.
- Pallet cradles for security and easy storage.
- Strict Quality Control procedures according to International Certifications and Industry's standards.

KARATZIS Bale Netwrap is manufactured with state-of-the-art Raw Materials and a unique manufacturing process which makes it the best solutions for trouble free baling. Recognized by Farmers and Contractors worldwide, has proven to consistently deliver all the performance criteria a farmer or contractor demand.

KARATZIS Bale Netwrap is subject to regular DLG monitoring tests which is performed on all saleable balers worldwide as well as checked for technical specifications requirements. More exact details you will find in our DLG-accredited report www.dlg-test.de

It provides with full, consistent and uniform bale coverage while achieving a fast baling process. It is suitable for all crops (silage, hay, straw, cornstalk, maize) and works under all weather conditions.

TECHNOLOGIES

Our new generation Bale Netwrap designed with an exclusive technology with higher mass and tensile strength in the chain: to cope with all new brand baler machines, providing easy feed and cut through the baler, improved grip and bale compression and better water resistance, in a workable roll weight.

Maglia Grande[®] represents a latest evolution of KARATZIS bale netwrap technologies. Maglia Grande[®] is a wide mesh netwrap with 25 reinforced chains. The result is one of the strongest Bale Netwrap available in the market with all the features of KARATZIS Bale Netwrap.
